

AbileneMachine®
Ag Replacement Parts

**FOR NEW HOLLAND®
COMBINES**

AbileneMachine.com

My Shed Feature on AbileneMachine.com

**Narrow down your parts search
specifically to your equipment**

Select the make, equipment and model of your machine in the dropdown menus located at the top of the home page. Click the "Go" button.

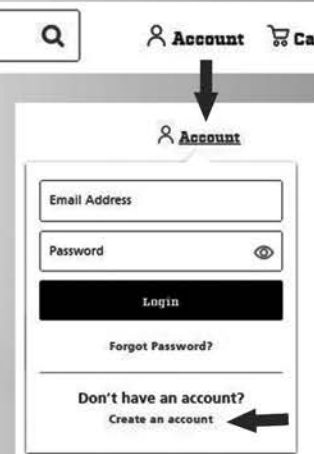

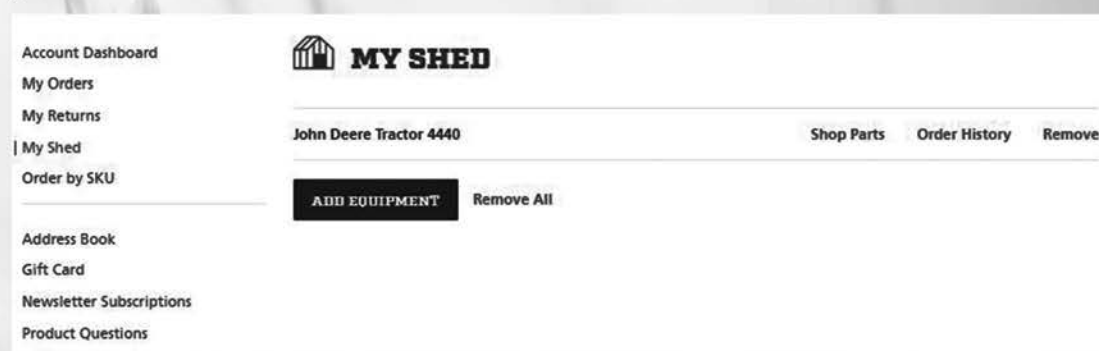

With your equipment selected, enter the product you are searching for (or part number if you have it). Suggested results will be displayed, or press enter to go to a list of all product results for your machine.

With the My Shed feature, your equipment selections can now be saved to your account to make future searching convenient and easy!

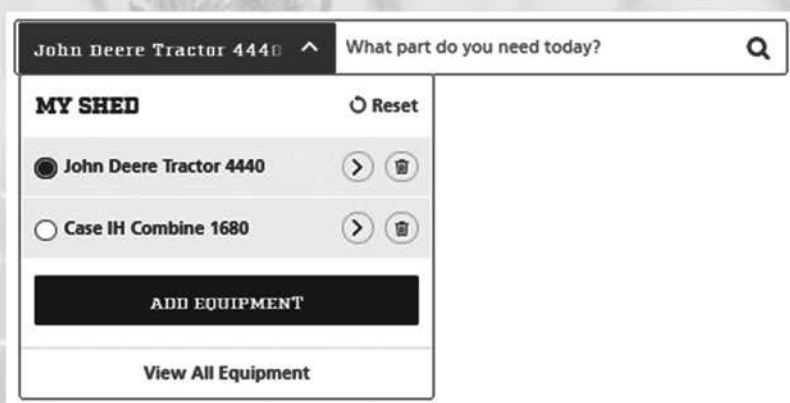

Once you create an account to access "My Shed," your equipment can be saved and you can also view past order history. This makes yearly maintenance easier and faster when it comes to getting the parts you need.

To create an account, select the Account icon to the right of the search bar and select "Create an account."

Follow the next screen to enter your information and create the account. If you made an equipment selection in the parts search, it will automatically be added to "My Shed" and will also be viewable on your Account Dashboard. Additional equipment can be added by clicking the "Add Equipment" button from either screen (prompts the dropdown menu at the top to open again) or by going directly to the parts search at the top of the page and making a new selection. When you hit "Go," this selection is automatically added to your shed.

Quickly switch between equipment in your Shed by clicking the dropdown menu at the top of the page and selecting between machines. The page will reload to that selection and is ready to search for the products you need.

Feederhouse Chains

Our feederhouse chains utilize high-quality materials to meet or exceed OEM specifications. Slat are mounted using 3/8" grade 5 plated bolts and locknuts for easy replacement. Chains feature full side plates and high-strength steel for added durability. All feederhouse chains come with serrated slats unless otherwise noted. Call for different slats and chain configurations available to fit your application.
