# With the My Shed feature, your equipment selections can now be saved to your account to make future searching convenient and easy!

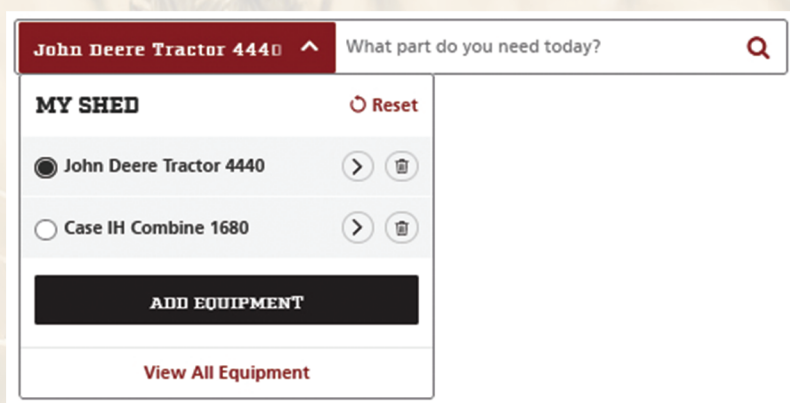

Once you create an account to access "My Shed," your equipment can be saved and you can also view past order history. This makes yearly maintenance easier and faster when it comes to getting the parts you need.

To create an account, select the Account icon to the right of the search bar and select "Create an account."

Follow the next screen to enter your information and create the account. If you made an equipment selection in the parts search, it will automatically be added to "My Shed" and will also be viewable on your Account Dashboard. Additional equipment can be added by clicking the "Add Equipment" button from either screen (prompts the dropdown menu at the top to open again) or by going directly to the parts search at the top of the page and making a new selection. When you hit "Go," this selection is automatically added to your shed.

Quickly switch between equipment in your Shed by clicking the dropdown menu at the top of the page and selecting between machines. The page will reload to that selection and is ready to search for the products you need.

# Grammer® Seat Identification Guide

Grammer® seats are ultimately designed for the people who use them, with maximum comfort and intuitive operation being major design principles. After all, the operator shouldn't fit the seat; the seat should fit the operator.

We offer several seat options – including the 721, 731, 741 and 742 shown below – with more available online. Let us help you easily pick the best fit by reviewing the seat number identification guide and determining your seating needs!

**7 2 1**

Type of Seat Top	Width of Seat Cushion	Height of Backrest
3 = 1 Pan (Gator Seat)	1 = Narrow, 15.70"-17.70"	1 = Low Back, 17.70"
5 = Small, 2-Part Seat	2 = Medium, 15.70"-19.50"	2 = High Back, 20.50"
7 = Large, 2-Part Seat	3 = Wide, 19.50"-21.30"	
	4 = Extra Wide, 21.30"+

# Draper Belts

Abilene Machine is proud to offer the Q-Power® line of heavy-duty draper belts to keep up with the demands of harvest. These best-selling products are comparable to OEM parts in tensile strength, tear strength and puncture resistance. They are exceptional replacements for many makes, including John Deere®, New Holland®, Case IH® and MacDon®.

## Features and Benefits

### Teardrop Cleats for Better Durability

Our draper belts are reinforced with teardrop-shaped fiberglass rods for increased cross-directional strength and durability.

#### Teardrop vs Diamond Cleat

### Filament Fibers for Increased Tensile Strength

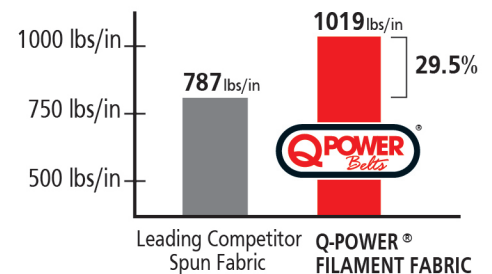

The patented design is made with filament fibers — long, continuous, uniform fibers — that consistently outperform belts made from typical spun fiber in strength tests. They stand up better to stretching and pulling than the competition.

### Coated for Enhanced Tear and Puncture Resistance

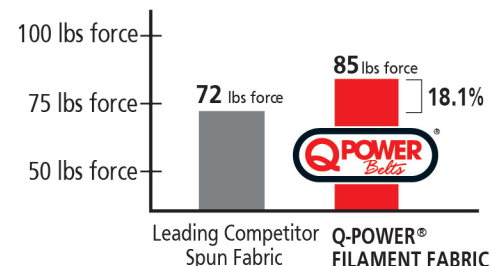

Q-Power® Draper Belts feature both skim and friction coating for enhanced performance. This rubber reinforcement is applied to the top (skim) and bottom (friction) of the belt, increasing durability and fabric protection, while reducing drag and belt weight.

*Abilene Machine is a family-owned and operated company that's been serving farmers for over 40 years. With an inventory of more than 40,000 parts and four locations across the United States, we'll make sure you get dependable, durable parts shipped fast.*

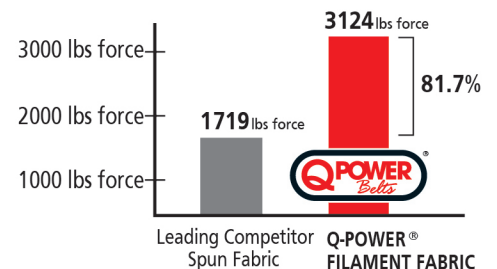

#### Q-Power® is 29.5% stronger

#### Q-Power® is 18.1% more tear resistant

#### Q-Power® is 81.7% more puncture resistant
