With the My Shed feature, your equipment selections can now be saved to your account to make future searching convenient and easy!

Once you create an account to access "My Shed," your equipment can be saved and you can also view past order history. This makes yearly maintenance easier and faster when it comes to getting the parts you need.

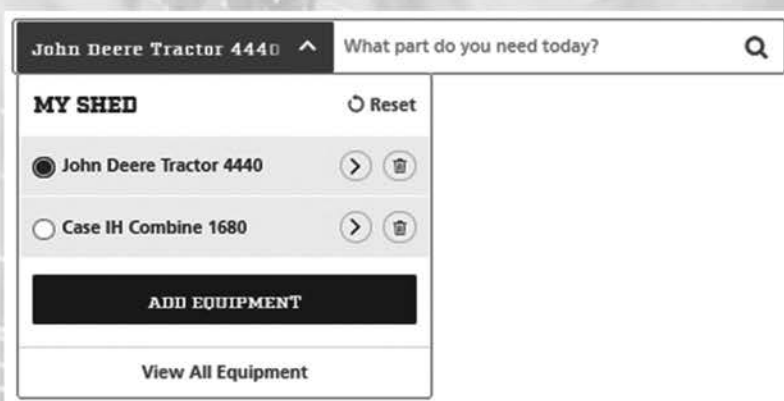

To create an account, select the Account icon to the right of the search bar and select "Create an account."

Follow the next screen to enter your information and create the account. If you made an equipment selection in the parts search, it will automatically be added to "My Shed" and will also be viewable on your Account Dashboard. Additional equipment can be added by clicking the "Add Equipment" button from either screen (prompts the dropdown menu at the top to open again) or by going directly to the parts search at the top of the page and making a new selection. When you hit "Go," this selection is automatically added to your shed.

Quickly switch between equipment in your Shed by clicking the dropdown menu at the top of the page and selecting between machines. The page will reload to that selection and is ready to search for the products you need. As a thank you for reading about our new My Shed program, please use the code MYSHED22 for a 5% discount on one order through December 31, 2022.

Connecting Rods

All connecting rods are cleaned and inspected for defects prior to remanufacturing. Rods are then shot-peened for stress relief and the size is checked against OEM specifications. New piston pin bushings are installed in each rod and bored to the correct center-to-center dimensions. The center-to-center dimension greatly affects the performance of your engine and is a step that many remanufacturers ignore. Final assembly of our connecting rods include installation of new rod bolts and verifying product dimensions, including bend and twist, one final time.

Oil Pumps, Engine

All of our remanufactured engine oil pumps are disassembled, thoroughly cleaned and inspected. All worn parts are replaced and tolerances are checked to guarantee our oil pumps will perform to OEM specifications. The pump is reassembled and—as a safety measure—each pump is lubricated with Clevite Bearing Guard to ensure there is no damage during initial start up. Replacing the engine oil pump during an overhaul is a step many people overlook.

Water Pumps and Components

The remanufactured water pumps we supply have an extra step added to the remanufacturing process to ensure quality. Since the bearing and seal assembly are critical in performance, we ensure air-tight seals by vacuum testing our water pumps prior to packaging. This guarantees no leakage will occur after your water pump has been installed.

Injection Pumps

All of our injection pumps are disassembled, thoroughly cleaned and inspected. All worn out parts are replaced and the pumps are reassembled with new gaskets. Pumps are tested for leaks and fuel delivery at low idle, high idle, full load, part load and at start up. Any pumps with an automatic advance system has the advance set. As an additional quality check, all pumps are tested with a special oil that will not varnish inside the pump.

Injectors

Our remanufactured injectors are disassembled and thoroughly cleaned. The internal components are lapped to ensure there is no leakage. All tips are inspected for hole erosion and opening pressure; and the spray pattern is tested using OEM specifications.

Ford® / New Holland®—Tractor

Mufflers and Exhaust

Our mufflers are manufactured by experienced craftsmen here in the United States. All mufflers have welded seams. Aluminized steel is used for critical components. These features ensure that our products resist the corrosive effects of air, heat and the by-products of combustion that work to shorten muffler life. Additionally, they are painted either silver or black to cosmetically match its OEM counterpart, as well as provide further protection from the elements.

Ford® / New Holland®—Tractor

Starters

All of our remanufactured starters are disassembled, cleaned and inspected. Almost all units receive new field coils. If it meets OEM specifications the armature is test turned and under cut, otherwise it is replaced with a quality factory remanufactured or new part. Starters with factory solenoids have the solenoids replaced with new parts. The drive is carefully inspected and if it does not meet specifications it is replaced with new or quality factory remanufactured drives.

Ag Replacement Parts

Honest. Personal. Service.

Engine Overhaul Kits and Parts

To succeed, farms depend on their equipment's ability to perform day-in, day-out. Make sure your engine is up to the task. Whether you need to make a quick repair or want to fine-tune your entire engine, we can help with our extensive inventory of high-quality overhaul kits and engine parts.

Multiple Options

We offer a wide variety of overhaul kits to fit any need. Our kits cover diesel and gas machines and are built to fit most makes, including John Deere®, Case IH®, International®, Ford®, New Holland®, Allis Chalmers® and more. We offer remanufactured shortblocks and longblocks. We also carry inframe and complete remanufactured engines, as well as used engines to fit any need and budget.

Components

Our high-quality component parts are thoroughly tested and competitively priced. Kits range from basic to comprehensive and may include:

- Cylinder kits
- Piston pin bushings
- Rod bearings
- Main bearings
- Camshaft bushings
- Camshaft plug
- Front and rear crankshaft seals
- Gasket set with seals
- Connecting rod bolts

One-Year Warranty

Abilene Machine offers a standard one-year warranty on new, used and remanufactured parts for peace of mind.

Abilene Machine is a family-owned and operated company that's been serving farmers for over 40 years. With an inventory of more than 40,000 parts and four locations across the United States, we'll make sure you get dependable, durable parts shipped fast.

Abilene, Kansas

AbileneMachine.com

All parts are new unless designated remanufactured in the description. Products listed are replacement parts only – not original equipment manufacturers. OEM names and brands are used for identification purposes only.

Grammer[®] Seats

You spend a lot of time in your cab, and having high-quality seating is about more than being comfortable. It's about protecting your back and keeping you going. Whether you need to make a repair or want a plug-and-play replacement, we can help with our extensive inventory of Grammer[®] seats.

Grammer[®] seats are the gold standard for cab seats. These extremely durable seats are plug-and-play, so you can easily install them and get back in the field. We offer models with mechanical and air ride suspensions, so you can find a seat that fits you (and your farm equipment) perfectly.

We also offer buddy seats, assemblies and individual components including cushions, suspensions and

additional replacement parts. We have you covered for many makes and models, including John Deere[®], Case IH[®], International[®], New Holland[®], Bobcat[®] and more.

For more than 40 years, Abilene Machine has been helping distributors, dealers and repair shops like yours succeed by providing top-rated parts at great prices — all with exceptional service. See how our family-owned company can help your business grow.
