AbileneMachine®
Ag Replacement Parts

www.AbileneMachine.com

For Almost 40 Years ...

Abilene Machine has been (and continues to be) a family-owned parts business known for its quality replacement parts at fair prices. We take pride in setting the highest possible standards in this industry and continue to make advancements that benefit you, our customer.

As one of the largest and most innovative ag replacement parts companies, getting you the parts you need is a responsibility we take seriously. Abilene Machine carries an inventory of more than 100,000 new, remanufactured and recycled parts at 4 locations nationwide. See our back cover to view the convenient distribution points we offer across the United States.

Since the early years of Abilene Machine, systems have been in place to provide quality parts to our customers. Today, Abilene Machine's parts continue to meet and surpass the standards set by original equipment manufacturers – with prices that are decidedly lower. We are also among the first to provide extensive testing on rebuild hydraulic pumps and one of the few to balance augers. A one-year warranty is provided on all new and remanufactured parts.

Honest. Personal. Service. It's more than just words – it's a promise we strive to live up to every day. After almost 40 years of unwavering determination to do business without compromise, the right way is the only way at Abilene Machine.

Allis Chalmers®—Seats and Suspensions

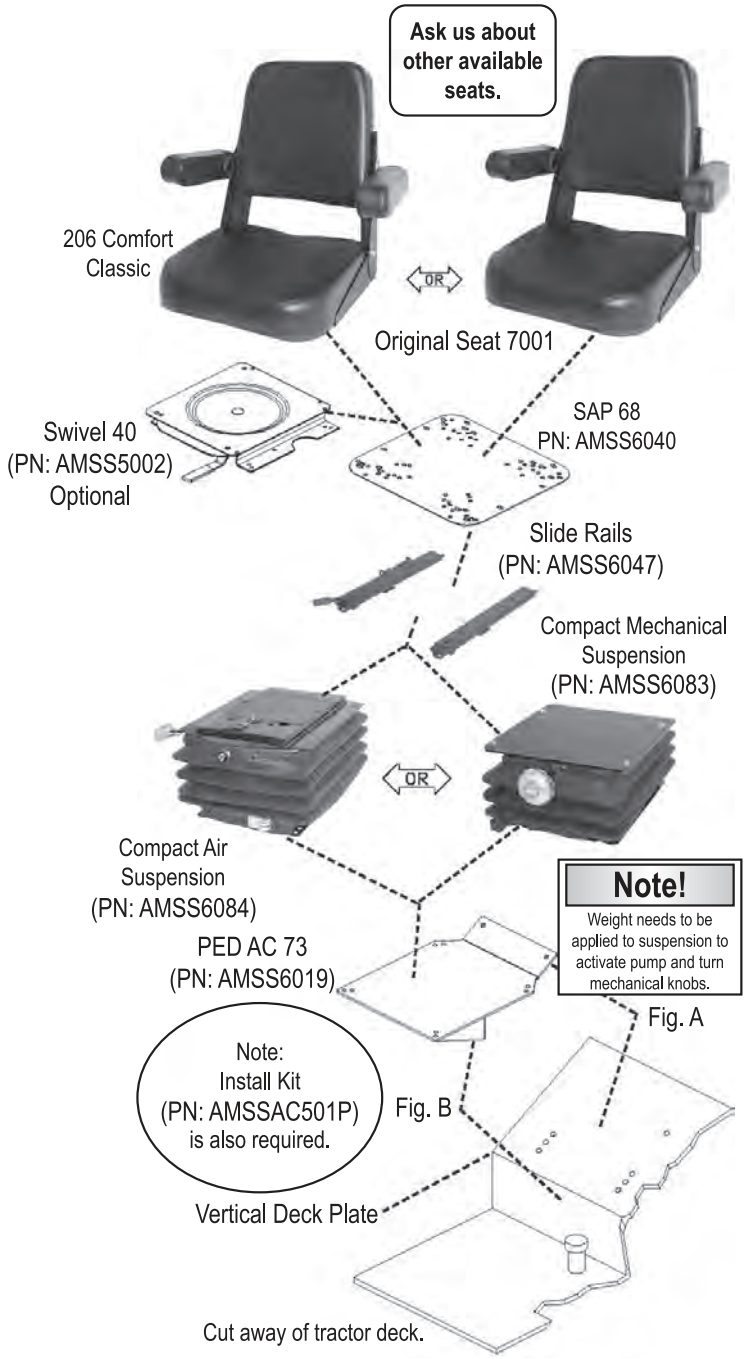
Suspension—7000 Series



Installation Instructions to Place an Air or Mechanical Suspension in an AC 7000 Series Tractor

1. Remove all of the original suspension and slide rail mechanisms. Remove the angle bracket from the cab deck (you must get down to the bare angled cab deck).
2. Attach the PED AC 73 by using two of the existing holes in the lower cab panel. (Fig. A) Fasten with two 5/16" x 1" bolts and lock washers.
3. Drill two new holes into the vertical deck plate to correspond with the bottom holes in the pedestal support frame. (Fig B) Fasten with two 5/16" x 3/4" bolts, lock washers and nuts.
4. Bolt the slide rails to the suspension with four 5/16" x 1" bolts, spacer nuts, lock washers and nuts.
5. Bolt the SAP 68 to the slide rails with four 5/16" x 3/4" flat head socket cap screws and four 5/16" jam nuts. (Four 3/8" nuts are used as spacers between the SAP 68 and slide rails.) (Slide rail lever must be assembled on the right hand side of seat.)
6. Tighten the slide rail and SAP bolts, then pull the slide rail lever and slide the rails and SAP off the suspension.
7. Bolt the suspension to the pedestal with four 5/16" x 3/4" bolts, lock washers and nuts.
8. For the 206 Comfort Classic or the OEM seat, fit the rail and SAP assembly to the seat and bolt with 5/16" x 1" bolts, spacer nuts and lock washers. On SAP 68, use bolt-hole pattern #3 for the 206 Comfort Classic and hole pattern #13 for the OEM seat.
9. Slide the rail, SAP and seat assembly onto the suspension.
10. For air suspension, locate a power source and connect to power and ground.

Note!

7/16" nuts provided are used as the spacer nuts.

Description		Part Number	Retail Price

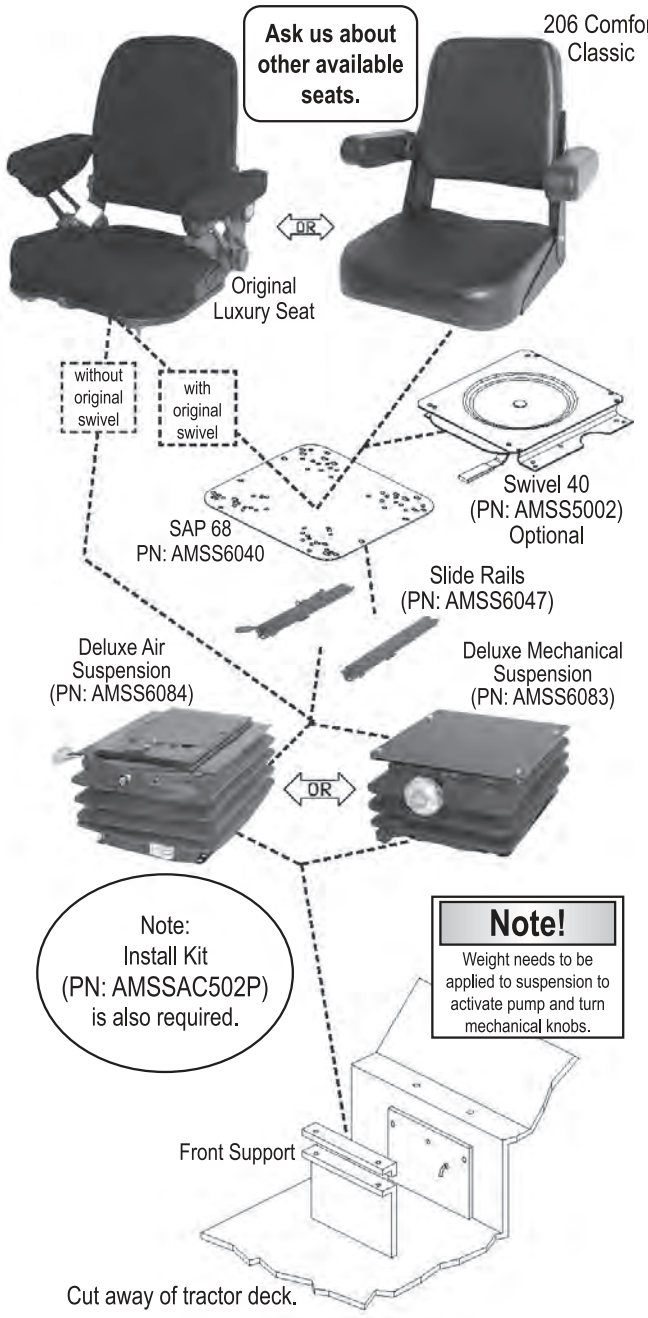
Suspension—8000 Series



Installation Instructions to Place an Air or Mechanical Suspension in an AC 8000 Series Tractor

1. Remove the original seat suspension assembly.
2. Bolt the slide rails to the suspension with four 5/26" x 1" bolts, lock washers and nuts.
3. Bolt the SAP 68 to the slide rails with four 5/16" x 3/4" flat head socket cap screws and four 5/16" jam nuts. (Four 3/8" nuts are used as spacers between the SAP 68 and slide rails. Slide rail lever must be assembled on the right hand side of the seat.)
4. Tighten the slide rail and SAP bolts, then pull the slide rail lever and slide the rails and SAP (or rails and seat) off the suspension.
5. Bolt the suspension to the pedestal with four 5/16" x 3/4" bolts, lock washers and nuts. **Drilling will be required.**
6. For Original Luxury Seat WITH original swivel fasten the SAP assembly to the seat swivel with four 5/16" x 3/4" bolts and lock washers using hole pattern #13 on the SAP 68.
7. For the 206 Comfort Classic Seat, fasten the SAP assembly to the seat swivel with four 5/16" x 1" bolts, spacer nuts and lock washers using hole pattern #3 on the SAP 68.
8. Slide the rail, SAP and seat assembly onto the suspension.
9. For air suspension, locate a power source and connect to power and ground.

Note!

For Luxury Seat without original swivel, mark and drill the rear holes in the suspension and bolt up to the original slide rails using four 5/16" x 3/4" bolts, lock washers and nuts.

Note!

7/16" nuts provided are used as the spacer nuts.

Ford® / New Holland®—Seats and Suspensions

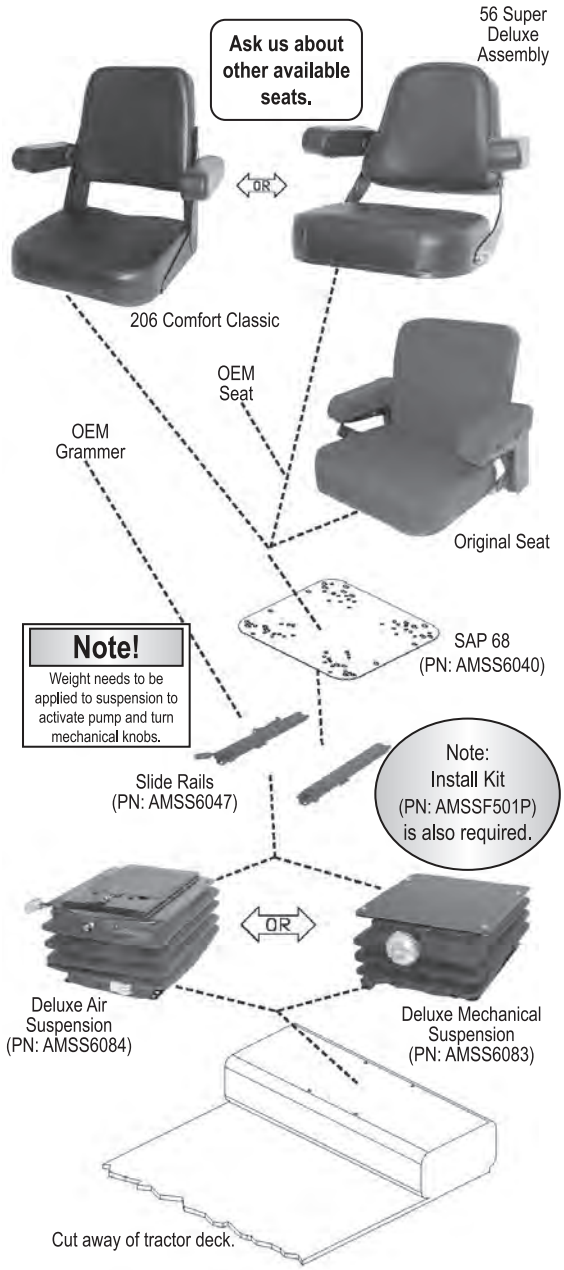
Suspension—7410, 7700 thru TW Series



Installation Instructions to Place an Air or Mechanical Suspension in a Ford 7410, 7700, 7710, 7810, 7910, 8210, 8630, 8700, 8730, 8830, 9030, 9700 or TW Series Tractor

1. Remove the original seat and suspension.
2. Bolt the slide rails to the suspension with four 5/16" x 1" bolts, bell washers, lock washers and nuts.
3. Bolt the SAP 68 to the slide rails with four 5/16" x 1" flat head socket cap screws and four 5/16" jam nuts. (Four 3/8" jam nuts are used as spacers between the SAP 68 and slide rails. Slide rail lever must be assembled on the right hand side, when sitting in the seat.)
4. Tighten the slide rail and SAP bolts, then pull the slide rail lever and slide the rails and SAP off the suspension.
5. Bolt the suspension to the tractor deck using the original bolts. Drilling will be required.

6a. For 206 Comfort Classic Seat, fasten the SAP assembly to the seat with four 5/16" x 1" bolts, spacer nuts and lock washers using hole pattern #3 on the SAP.

6b. For 56 Super Deluxe Seat, fasten the SAP assembly to the seat with four 5/16" x 2" bolts, 1" tube spacers and lock washers using hole pattern #8 on the SAP. Be sure the label on the SAP is toward the back of the seat. When using the Swivel 40, the tube spacers are not needed.

7. For the Original Bostrom Seat, fasten the SAP assembly to the seat with four 5/16" x 3/4" bolts, lock washers and nuts using hole pattern #5 on the SAP.
8. Slide the rail, SAP and seat assembly onto the suspension.
9. For air suspension, locate a power source and connect to power and ground.

Note!

7/16" nuts provided are used as the spacer nuts.

International®—Seats and Suspensions

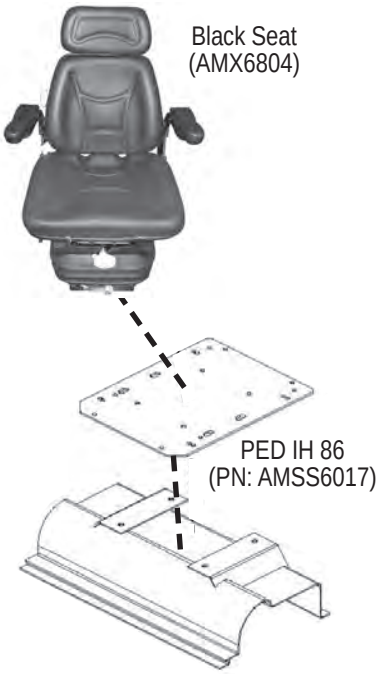
Suspension—86 & 88 Series w/ Hydraulic Suspensions



Installation Instructions to Replace an Air-Oil or Hydraulic Suspension with an Air or Mechanical Suspension in an IH 86/88 Series Tractor

1. Remove original seat and suspension.
2. Cap the hydraulic lines with nuts and plugs provided. Cut and plug the breather line by turning a 5/16" bolt into the tube.
3. Fasten the PED IH 86 to the support bracket with four 5/16" x 1" bolts, lock washers and nuts. For additional height, use four 5/16" x 2" bolts and 1" long tube spacers.
4. Bolt AMX6804 (Vinyl) assembly to pedestal.
5. For air suspension, locate a power source and connect to power and ground.

Note!

7/16" nuts provided are used as the spacer nuts

Description		Part Number	Retail Price
Seat and Suspension Assembly	Black Vinyl	AMX6804	$ 495.00

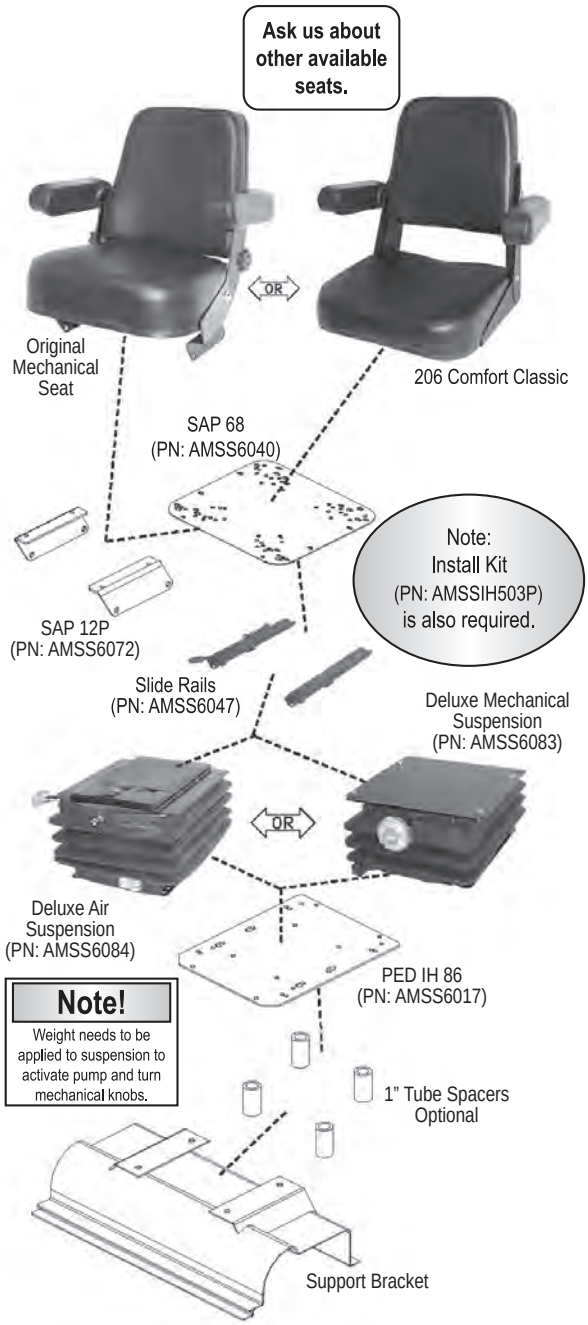
Suspension—86 & 88 Series w/ Mechanical Suspensions



Installation Instructions to Place an Air or Mechanical Suspension in IH 86/88 Original Mechanical Suspension with an Air or Mechanical Suspension

1. Remove the original seat and suspension mechanisms.
2. Fasten the PED IH 86 to the seat support compartment with four 5/16" x 1" bolts, lock washers, flat washers and nuts. For additional height, use four 5/16" x 2" bolts and 1" long tube spacers.
3. Bolt the slide rails to the suspension with four 5/16" x 1" bolts, lock washers and nuts.
4. Bolt the SAP 68 to the slide rails with four 5/16" x 3/4" flat head socket cap screws and 5/16" jam nuts. (Four 3/8" jam nuts are used as spacers between the SAP 68 and slide rails.) (Slide rail lever must be assembled on the right hand side of the seat.)
5. Tighten the slide rail bolts and SAP bolts, then pull the slide rail lever and slide the rails and SAP off the suspension.
6. Bolt the suspension to the pedestal and four 5/16" x 1" bolts, spacer nuts, lock washers and nuts.

7a. For the Original Mechanical Seat, bolt the SAP 12P angles to the bottom of the SAP 68 with four 5/16" x 3/4" carriage bolts, lock washers, and nuts using hole pattern #7 on the SAP 68. Bolt the seat to the angles with two 1/2" x 1" bolts, lock washers and nuts.

Note!
The SAP 12P brackets are used only on the original seat.

7b. For 206 Comfort Classic Seat, fasten the SAP 68 with four 5/16" x 1" bolts, spacer nuts, lock washers and nuts using hole pattern #3 on the SAP 68.

8. Slide the rail, SAP and seat assembly onto the suspension.
9. For air suspension, locate a power source and connect to power and ground.

Note!
7/16" nuts provided are used as the spacer nuts.

High Rate Sensor Tester Tool

AMX55033

Features:
- Handheld design allows tester to be transported with ease
- Used for testing both seed flow sensors and population sensors
- Comes with standard weather-pack connector
- Weather-pack connector is adaptable to a Cannon™ Sure Seal or a 3 Amp connector (sold separately)
- Operates on a 9-volt battery (included)

Adapter

AMX55036 — Weather-Pack Connector to Cannon™ Sure Seal Connector
AMX55037 — Weather-Pack Connector to 3 Amp Connector

For AMX55033 High Rate Sensor Tester Tool

Seed Meter

AMX55031

When used on conventional drills and air seeders, the Seed Meter allows you to accurately measure the pounds of seed per acre regardless of row spacing. Includes sample collection bag and instructions with spacing and travel distance chart.

Graphite Powder, Seed Flow Lubricant

AMX55038

Comes in a 1.00 lb bottle

Talc/Graphite Blend

AMX55049

Comes in a 40.00 lb Box

Planter & Grain Drill Parts

	Application	Description	Part Number	Retail Price
	1700, (1705, 1715, 1725, 1735, 1755, 1765, 1765NT, 1775, 1775NT, 1785 ASN 760101), 1710, 1720, 1730, 1750, 1760, 1760NT, 1770, 1770NT, 1780, 7000, 7200, 7240, 7300, 7340, DB37, DB37C, DB41, DB41C, (DB44, DB58, DB66, DB88, DB90 ASN 760101), DB53, DB55, DB55C, DB60, DB62, DB74, DB80, DB83, DB120	Rubber Spacer	AMA43610	$ 4.75

Fertilizer Shoes

	Application	Description	Part Number	Retail Price
	1750, 1770, 1780, 7200, 7240	Fertilizer Shoe, Right Hand	AMA52150	$ 50.00
		Fertilizer Shoe, Left Hand	AMA52149	$ 50.00

Replacement Chains for Planters with MaxEmerge®2 and MaxEmerge®Plus Row Units

Seed Meter Chains for MaxEmerge®2 and MaxEmerge®Plus:

Part Number		Application	Description	Retail Price
AMAA33060		With vacuum meter and standard parallel arms, also fits MaxEmerge®XP	Chain, 112 link, Includes connector link	$ 10.00
AMAA43718		MaxEmerge®2 with vacuum meter herbicide/ insecticide chain after 1992, MaxEmerge®Plus and XP with vacuum meter herbicide/insecticide chain	Chain, 113 links Includes connector link	$ 7.00
AMAA43720		With vacuum meter seed meter chain for units with long parallel arms, also fits MaxEmerge®XP	Chain, 140 links Includes connector link	$ 13.00

Herbicide/Insecticide Chains for MaxEmerge®2 Prior to 1992:

Part Number		Application	Description	Retail Price
AMAA33048		With plate meter seed meter chain & vacuum meter herbicide/insecticide chain prior to 1992	Chain, 104 link Includes connector link	$ 7.00

Herbicide/Insecticide Chains for MaxEmerge®2 1992 and Later; all MaxEmerge®Plus:

Part Number		Application	Description	Retail Price
AMAA20978		With seed meter chain	Chain, 98 links Includes connector link	$ 10.00
AMAA43719		With finger pickup meter herbicide/insecticide chain on units after 1992, also MaxEmerge® herbicide/insecticide chain	Chain, 110 links Includes connector link	$ 9.00
AMAA42795		MaxEmerge®2 w/ finger pickup meter on units prior to 1992 and w/ plate meter herbicide/insecticide chain after 1992, MaxEmerge®Plus and XP w/ finger meter	Chain, 102 links Includes connector link	$ 8.00

Prices Subject to Change without Prior Notice. Planter & Grain Drill Parts

	Application	Description	Part Number	Retail Price
	800 and 900 Cyclo main wheel drive chain on trailing planters ASN 14501	Chain, Type 2050, 56 links Includes connector link	AMAA22372	$ 14.00
	Cyclo output speed drive chain	Chain, 44 links Includes connector link	AMAA21483	$ 7.00
	Planters: 1200, 1200PT, 1210, 1220, 1230, 1240, 1250, 1255, 1265	Solenoid, Flow Control Valve Replaces 87775314	AM188105A1	$ 70.00

Planter Parts for New Holland®

	Application	Description	Part Number	Retail Price
	SP280, SP380, SP480, SP580	Disc Opener Assembly, 14" x 3.50 mm, Right Hand Bellota®, Taper is on opposite side of hub	AM90851C92	$ 26.50
		Disc Opener Assembly, 14" x 3.50 mm, Left Hand Bellota®, Taper is on same side as hub	AM90850C92	$ 26.50
	SP280, SP380, SP480, SP580 Note: Models Prior to 2012 can be updated to this blade using AM107-111D Cover and 5/8" x 2.00" Bolts	Disc Opener Assembly, 14" x 4.50 mm Bellota®, Double Bevel, Leading Opener w/ Heavy Duty Bearing	AM84416318	$ 36.50
		Disc Opener Assembly, 14" x 4.50 mm Bellota®, Double Bevel, Trailing Opener w/ Heavy Duty Bearing	AM84416319	$ 36.50
	SP280, SP380, SP480, SP580 - w/ Seed and Fertilizer Openers	Disc Opener Bearing, 204 Series 0.628" ID, 1.782" OD	AMAA21480	$ 6.85
	SP280, SP380, SP480, SP580	Covering Disc Assembly 8" Diameter, 0.118" Thickness	AM1277891C91	$ 25.00
	SP280, SP380, SP480, SP580	Gauge Wheel Assembly, 4.50" x 15.50"	AM225349A1	$ 75.00

Grain Drill Parts for Landoll®

	Application	Description	Part Number	Retail Price
	5210, 5211, 5530, 5531, 5540, 5550	Disc Opener Assembly, 15.75" x 3.50 mm	AM143880	$ 53.00

Grain Drill Parts for Sunflower®

	Application	Description	Part Number	Retail Price	Core
	(9100, 9200, 9300, 9400 BSN 18358 Prior to 2001 w/ Offset Openers)	Seed Disc Opener Assembly, 15" Bellota®	AMSN7261	$ 34.00	
	(9100, 9200, 9300, 9400 ASN 18358 2001 and Later w/ Offset Openers)	Seed Disc Opener Assembly, 15" Bellota®	AMSN9753N	$ 34.00	
	(9100, 9200, 9300, 9400 ASN 18358 2001 and Later w/ Offset Openers)	Seed Disc Opener, 15" Bellota®, Blade Only	AMSN9752N	$ 20.00	

Prices Subject to Change without Prior Notice. Planter & Grain Drill Parts

Planter and Grain Drill Parts for Great Plains®

	Application	Description	Part Number	Retail Price
	Grain Drills	Drill Disc Assembly, 13.50" x 4 mm Bellota®, w/ 205 Bearing	AM107-138S	$ 29.00
		Drill Disc Assembly, 13.50" x 3 mm Bellota®, w/ 205 Bearing	AM107-135S	$ 24.50
	Planters: Late Model Row Units 1999 and Later, Grain Drills: Late Model 1999 and Later w/ Heavy Duty HD00, HD10, 15 and 25 Series Openers	Disc Opener Assembly, 15" x 4 mm Bellota®, HD, w/ 205 Series Bearing (5/8" ID)	AM820-287C	$ 33.00
	Planters: Most Models, Grain Drills: Early Models w/ 13.50" Double Disc Openers Replaces 820-003C, 822011C	Disc Opener Bearing, 204 Series 0.628" ID, 1.782" OD	AMAA21480	$ 6.85
	Grain Drills	Disc Opener Bearing, 205 Series 3/4" ID, 2.09" OD For Early 15.00" Disc Openers	AM188-007V	$ 8.50
	Grain Drills	Double Disc Opener Bearing 205 bearing w/ 5/8" ID hole Replaces GD8188	AM188-001V	$ 9.50
	Grain Drills	Cap Required when replacing 204 bearing assembly w/ 205 bearing assembly	AM107-111D	$ 2.25
	Grain Drills: YP30, YP40, YP425A (4 Row Pull-Type Yield Pro Sugar Beet), YP425A3P, YP625A, YP625A3P, YP825A, YP825A3P (8 Row 3-Point Mounted Yield Pro), YP825AR, YP1225, YP1225A, YP1625, YP1625A, YP2425, YP2425A	Gauge Wheel Tire, 3" x 16" Carlisle® Replaces A75374, A84349	AMA85133	$ 33.00
		Gauge Wheel Tire, 3" x 16" Solid Urethane, Extended Wear Replaces A75374, A84349	AMA85133U	$ 75.00
	Grain Drills	Smooth Crown Tire, 2" x 13"	AMX55026	$ 15.00
	Grain Drills	Wheel, 2" x 13" w/ Nylon Wheels & Stem Bearings	AM814-157CN	$ 60.00
	Grain Drills	Press Wheel, 3" x 13" Includes Single Rib Tire, Nylon Wheel Halves, Bearing	AM814-158C	$ 73.00
	Grain Drills: Models Prior to 1997 w/ 2x13, 3x13 or 3x14 Press Wheels, Models 1984 and Later w/ 4x12 Press Wheels	Press Wheel Bearing 0.72" Wide, 0.625" ID (2) Required	AM822-095C	$ 5.75
	YP Grain Drills Replaces 814-260C	Gauge Wheel Assembly, Narrow 3" x 16"	AMAA66988	$ 70.00
		Gauge Wheel Assembly, Narrow 3" x 16" Solid Urethane Tire	AMAA66988U	$ 90.00
	YP Grain Drills Replaces 814-173C	Gauge Wheel Assembly, 4.50" x 16"	AMAN281630	$ 70.00
		Gauge Wheel Assembly, 4.50" x 16" Solid Urethane	AMAN281630U	$ 90.00
	YP Grain Drills	Rim, Plastic	AMA85134	$ 16.50
	YP Grain Drills	Rim, Steel	AMA85104	$ 16.50
	Fits 2" x 13" and 3" x 13" Press Wheels Built 1997 and Later	Double Row Ball-Bearing, 40 mm Fits 4" x 16" wheel assemblies	AMAN212132	$ 7.50

Prices Subject to Change without Prior Notice. Planter & Grain Drill Parts

	Application	Description		Part Number	Retail Price
	Grain Drills	Packer Wheel, 1" x 10" Stem type bearing		AM199-009C	$ 25.00
 	YP Grain Drills	Keeton® Seed Firmer Seed Tube Mount	w/ Standard Dry Tail w/ Standard Liquid Tail	AMX55018 AMX55019	$ 44.00 $ 45.00
	Grain Drills	Scraper, Slotted For 13.50" Disc Openers Hardware Included		AM107-113D	$ 3.15

Grain Drill Parts for Tye®

	Application	Description	Part Number	Retail Price
	Grain Drills	Disc Opener Assembly, 13.50"	AM540-012	$ 34.50
	Models w/ Conventional Grain Drill Double Disc Openers	Disc Opener Bearing, 204 Series 0.628" ID, 1.782" OD	AMAA21480	$ 6.85
	Grain Drills	Packer Wheel, 1" x 10" w/ 1/2" ID Bearing	AM501-006	$ 24.95
	2015, 2020	Closing Wheel Tire, 1" x 12"	AMAA22325	$ 6.75
	Grain Drills	Bearing, Stem Type No bushing necessary	AMAA38106	$ 9.50
	Grain Drills	Bearing, Stem Type	AMAN131668	$ 6.50
	For Gauge Wheel Assembly	Stem Bearing Bushing Use w/ AMAN131668 Stem Bearing or AMAA35741 Stem Bearing w/ Hole	AMA25915	$ 1.60

Sensors—Seed Flow and Population

	Application	Description	Part Number	Retail Price
	Planters: Case IH® 800, 900, John Deere® 7000, 7100, 7200, 7300, Kinze®, White® 5100, 5400, 5700	Planter Seed Flow Sensor w/ 3 Amp Connector	AMAA27652	$ 53.50
	Planters: Case IH® 800, 900, John Deere® 7000, 7100, 7200, 7300, Kinze®, White® 5100, 5400, 5700	Planter Seed Flow Sensor w/ Weather Pack Connector	AMX55005	$ 53.50

Prices Subject to Change without Prior Notice. Grain Tank Extensions

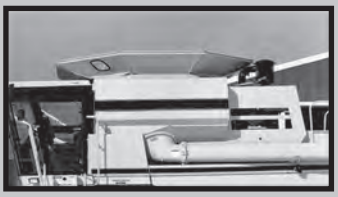
3" formed channel frame on John Deere® and Case IH® Gen II extensions provide unmatched strength and durability.

Simply add a Tip-Up Kit to a regular-size extension for added capacity.

Also available for Massey Ferguson® and New Holland®



Corner Caps on all Case IH® Gen II extensions prevent leakage.

**When Ordering John Deere® or Case IH® parts for Tip-Up Assemblies, Generation I or Generation II design MUST be determined before ordering. Helpful hints to distinguish between Gen I and Gen II include:

Generation I
- Rolled Steel at Top
- 10.50" x 10.50" Square Window
- Round Lynch-Style Pin Stud
- 4" Door-Style Hinge at Bottom

Generation II
- Square Top Edge
- 11" x 8" Trapezoid Window
- Oblong Pin Stud
- Hinge Point w/ Bolt at Bottom

Backhoe-Loader: 540 w/ 172 CID 4 Cylinder or 172D 2.8 Liter Diesel Engine	Crankshaft 6 Bolt Holes, 1 Dowel Hole, Splined Snout w/ 1 keyway, Comes w/ Balancer Gear	AMEZJL6300BA-2	$ 610.00	

Connecting Rods

All connecting rods are cleaned and inspected for defects prior to remanufacturing. Rods are then shot-peened for stress relief and the size is checked against OEM specifications. New piston pin bushings are installed in each rod and bored to the correct center-to-center dimensions. The center-to-center dimension greatly affects the performance of your engine and is a step that many remanufacturers ignore. Final assembly of our connecting rods include installation of new rod bolts and verifying product dimensions, including bend and twist, one final time.

Application	Description	Part Number	Retail Price	Core

Oil Pumps, Engine

All of our remanufactured engine oil pumps are disassembled, thoroughly cleaned and inspected. All worn parts are replaced and tolerances are checked to guarantee our oil pumps will perform to OEM specifications. The pump is reassembled and - as a safety measure - each pump is lubricated with Clevite Bearing Guard to ensure there is no damage during initial start up. Replacing the engine oil pump during an overhaul is a step many people overlook.

Application	Description	Part Number	Retail Price	Core

Water Pumps

The remanufactured water pumps we supply have an extra step added to the remanufacturing process to ensure quality. Since the bearing and seal assembly are critical in performance, we ensure air-tight seals by vacuum testing our water pumps prior to packaging. This guarantees no leakage will occur after your water pump has been installed.

Injection Pumps

All of our injection pumps are disassembled, thoroughly cleaned and inspected. All worn out parts are replaced and the pumps are reassembled with new gaskets. Pumps are tested for leaks and fuel delivery at low idle, high idle, full load, part load and at start up. Any pumps with an automatic advance system has the advance set. As an additional quality check, all pumps are tested with a special oil that will not varnish inside the pump.

Injectors

Our remanufactured injectors are disassembled and thoroughly cleaned. The internal components are lapped to ensure there is no leakage. All tips are inspected for hole erosion and opening pressure; and the spray pattern is tested using OEM specifications.

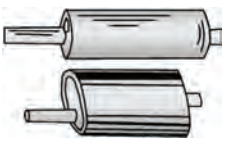
	Manifold Gasket	AMX36236	$ 15.00	

Mufflers and Exhaust



Our mufflers are manufactured by experienced craftsmen here in the United States. All mufflers have welded seams. Aluminized steel is used for critical components. These features ensure that our products resist the corrosive effects of air, heat and the by-products of combustion that work to shorten muffler life. Additionally, they are painted either silver or black to cosmetically match its OEM counterpart, as well as provide further protection from the elements.

Application	Description	Part Number	Retail Price	Core
160 w/ Perkins Diesel, 6040 Diesel	Muffler, Round 1 11/16" Inlet, 35" Length	AM79010624V	$ 42.50	
	Outlet Clamp	CL-134	$ 4.00	
	Rain Cap	RC-1	$ 12.00

Deutz® Engines: 912, 913, 914	Manifold Muffler 6 Cylinder	AM2247490	$ 175.00	

Starters

All of our remanufactured starters are disassembled, cleaned and inspected. Almost all units receive new field coils. If it meets OEM specifications the armature is test turned and under cut, otherwise it is replaced with a quality factory remanufactured or new part. Starters with factory solenoids have the solenoids replaced with new parts. The drive is carefully inspected and if it does not meet specifications it is replaced with new or quality factory remanufactured drives.

Feederhouse Chains

Our feederhouse chains utilize high-quality materials to meet or exceed OEM specifications. Slats are mounted using 3/8" grade 5 plated bolts and locknuts for easy replacement. Chains feature full side plates and high-strength steel for added durability. All feederhouse chains come with serrated slats unless otherwise noted. Call for different slats and chain configurations available to fit your application. Chain only kits available on many chains, ask your sales representative. Priced at 70% of the complete chain price. Chain kits will ship via UPS.

Concaves and Components

Made of heavy-duty, high carbon steel cross bars and high carbon steel 1/4" wires. Narrow-spaced rotary concaves feature low wires for more aggressive separation. Holes are drilled to provide a tight wire fit, which prevents spearing and trapping of straw. Corn concaves feature wider spacing and high wires to prevent plugging between bars.

Application	Description	Part Number	Retail Price	Core

Longblock Assemblies

Our remanufactured longblocks meet the highest standards in quality. All remanufactured components are inspected for structural integrity, cracks and dimensional specifications and then remanufactured back to OEM specifications. The components are then assembled using the highest quality new parts. We back this with one of the best warranties in the industry.

Application	Description	Part Number	Retail Price	Core
1896, 2096 - w/ 5.9 Turbo Engine	Longblock Assembly Replaces J920758, J286312	LBCUM5.9TA-N	$ 5940.00	$ 1000.00

Shortblock Assemblies

Our remanufactured shortblocks meet the highest standards in quality. All remanufactured components are inspected for structural integrity, cracks and dimensional specifications and then remanufactured back to OEM specifications. The components are then assembled using the highest quality new parts. We back this with one of the best warranties in the industry.

Connecting Rods

All connecting rods are cleaned and inspected for defects prior to remanufacturing. Rods are then shot-peened for stress relief and the size is checked against OEM specifications. New piston pin bushings are installed in each rod and bored to the correct center-to-center dimensions. The center-to-center dimension greatly affects the performance of your engine and is a step that many remanufacturers ignore. Final assembly of our connecting rods include installation of new rod bolts and verifying product dimensions, including bend and twist, one final time.

Oil Pumps, Engine

All of our remanufactured engine oil pumps are disassembled, thoroughly cleaned and inspected. All worn parts are replaced and tolerances are checked to guarantee our oil pumps will perform to OEM specifications. The pump is reassembled and - as a safety measure - each pump is lubricated with Clevite Bearing Guard to ensure there is no damage during initial start up. Replacing the engine oil pump during an overhaul is a step many people overlook.

Water Pumps

The remanufactured water pumps we supply have an extra step added to the remanufacturing process to ensure quality. Since the bearing and seal assembly are critical in performance, we ensure air-tight seals by vacuum testing our water pumps prior to packaging. This guarantees no leakage will occur after your water pump has been installed.

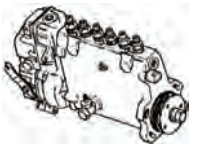
Injection Pumps



All of our injection pumps are disassembled, thoroughly cleaned and inspected. All worn out parts are replaced and the pumps are reassembled with new gaskets. Pumps are tested for leaks and fuel delivery at low idle, high idle, full load, part load and at start up. Any pumps with an automatic advance system has the advance set. As an additional quality check, all pumps are tested with a special oil that will not varnish inside the pump.

Injectors

Our remanufactured injectors are disassembled and thoroughly cleaned. The internal components are lapped to ensure there is no leakage. All tips are inspected for hole erosion and opening pressure; and the spray pattern is tested using OEM specifications.

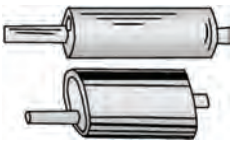
Mufflers and Exhaust



Our mufflers are manufactured by experienced craftsmen here in the United States. All mufflers have welded seams. Aluminized steel is used for critical components. These features ensure that our products resist the corrosive effects of air, heat and the by-products of combustion that work to shorten muffler life. Additionally, they are painted either silver or black to cosmetically match its OEM counterpart, as well as provide further protection from the elements.

Application	Description	Part Number	Retail Price	Core

Starters

All of our remanufactured starters are disassembled, cleaned and inspected. Almost all units receive new field coils. If it meets OEM specifications the armature is test turned and under cut, otherwise it is replaced with a quality factory remanufactured or new part. Starters with factory solenoids have the solenoids replaced with new parts. The drive is carefully inspected and if it does not meet specifications it is replaced with new or quality factory remanufactured drives.

Power Steering Pumps

Application	Description	Part Number	Retail Price	Core
990, 990 Selectamatic, 995, 1200 Selectamatic, 1210, 1212	Power Steering Pump w/o Reservoir	AMK918993	$ 385.00	
1200, 1210, 1212, 1390, 1394, 1490, 1494	Power Steering Pump Single Pump Replaces K307945, K919048, K944907	AMK307945	$ 231.00	
1290, 1390, 1490	Power Steering Pump w/ Reservoir	AMK957318	$ 385.00	

PTO Shafts

Application	Description	Part Number	Retail Price	Core
730, 830, 930, 1030	PTO Output Shaft Single Speed 540 RPM PTO, 13 11/16" Long	AMA64592	$ 200.00	
770, 870, 970, 1070, 1175	PTO Output Shaft Dual Speed, Flip-Flop, 11" Long	AMA58214	$ 258.00	
1896, 2090, 2094, 2096, 2290, 2294	PTO Output Shaft Dual Speed, Flip-Flop, 12 3/16" Long	AMA140655	$ 185.00	

Ring Gears and Pinions

Application	Description	Part Number	Retail Price	Core
Ind: 200B, 300, 300B, 310, 430, 440-1, 470, 480B, 530, 570, 580B, VAC	Ring Gear and Pinion Set 7 & 43 Tooth, 12 Holes	AMA50997	$ 475.00	
Ind: 480C, 480D, 580C, 580D	Ring Gear and Pinion Set Bolt-on for splined center wheel	AMA51980	$ 495.00	
970, 1070, 1090	Ring Gear and Pinion Set	AMA179357	$ 435.00	
1270 ASN 8736001, 1370 ASN 8727601	Ring Gear and Pinion Set	AMA67082	$ 400.00	
1896, 2090, 2290, 2294	Ring Gear and Pinion Set	AMA168188	$ 925.00	

Brake Shafts and Side Gears

Application	Description	Part Number	Retail Price	Core
1270, 1370, 2390, 2394	Brake Shaft 11.625" Long, 13 Tooth, 36 Splines	AMA168168	$ 265.00	
1570, 2590	Brake Shaft 13.00" Long, 13 Tooth, 41 & 36 Splines	AMA168169	$ 497.00	
(1896, 2090, 2094, 2096, 2290, 2294 Transmission BSN 16264554)	Brake Shaft 13.25" Long, 13 Tooth, 36 Splines	AMA168167	$ 469.00	
2470, 2670	Brake Shaft 10.563" Long, 13 Tooth, 30 Splines	AMA76594	$ 455.00	
1896, 2094, 2096	Pinion Gear 2.62" OD, 25 Tooth	AMA168174	$ 90.00	
(1270, 1370 ASN 10032467), 1570, 2390, 2394 BSN 16260432, 2590	Planetary Gear 3.125" OD, 25 Tooth	AMA168175	$ 229.00	

Brakes and Components

Application	Description	Part Number	Retail Price	Core
400, 730, 770 BSN 8682416, 830, (870, 970 BSN 8675001), 930, 1030	Brake Disc, Bonded 7" x 4", 24 Spline	AMA44712	$ 17.00	
770 ASN 8682417, (870, 970 ASN 8675002), 1070, 1170	Brake Disc, Bonded 8" x 5", 24 Spline	AM1975469C1	$ 17.00	

Prices Subject to Change without Prior Notice. Drawbars and Components

All of our drawbars are cut, drilled and heat-treated to exact design and specifications that meet or exceed OEM specifications.

Application	Description	Part Number	Retail Price	Core
970, 1070	Drawbar - Standard Duty 2.50" x 1.25" x 45.875" (1) 1.067" diameter front hole	AMA65750	$ 195.00	
1270 ASN 8717277, 1370, 1570, 2390, 2394, 2590, 2594	Drawbar 3.00" x 1.75" x 53.00" w/ 4.25" Offset (1) 1.281" diameter hole 1.75" from end	AMA160849	$ 195.00	
1896, 2090, 2094, 2096, 2290, 2294	Drawbar - Standard Duty 2.50" x 1.25" x 56.00"	AMA137939	$ 135.00	
730, 830, 930, 970, 1030, 1070	Drawbar Bracket, Front For tractors w/o 3-point hitch	AMA57201	$ 145.00	
770, 870, 970, 1070, 1175	Drawbar Bracket, Front For tractors with 3-point hitch	AMA59603	$ 314.00	

Hammer Straps

Application	Description	Part Number	Retail Price	Core
970, 1070, 1175, 2090, 2290	Drawbar Hammer Strap	AMA64384	$ 140.00	
1090, 1170, 1175, 1270, 1370, 1570, 2390, 2394, 2590, 2594, 3294, 3394, 3594	Drawbar Hammer Strap	AMA61557	$ 155.00	
1896, 2090, 2094, 2290, 2294, 3294	Drawbar Hammer Strap	AMA161230	$ 165.00	

Quick Hitches

Application	Description	Part Number	Retail Price	Core
Cat II	Quick Hitch, 4" x 6" Beam 36" Wide, Includes 1 1/8" Mounting Pins and Adapter Bushings	AMX741020	$ 525.00	
Cat III	Quick Hitch, 4" x 6" Beam 38" Wide, Includes 1 7/16" Mounting Pins	AMX741022	$ 525.00	
Cat III	Quick Hitch, 4" x 6" Beam 44" Wide, Includes 1 7/16" Mounting Pins	AMX741021	$ 525.00	

Battery Boxes and Components

Application	Description	Part Number	Retail Price	Core
2090, 2094, 2096, 2290, 2294, 2390, 2394, 2590, 2594, 3294, 3394, 3594	Battery Box Cover	AMA161331	$ 75.00	

Front Weight Bracket

Application	Description	Part Number	Retail Price	Core
1896, 2096, 2394, 2594, 3394, 3594	Front Weight Mounting Frame 18 Weights	AM1342125C2	$ 450.00	

Prices Subject to Change without Prior Notice. Longblock Assemblies

Our remanufactured longblocks meet the highest standards in quality. All remanufactured components are inspected for structural integrity, cracks and dimensional specifications and then remanufactured back to OEM specifications. The components are then assembled using the highest quality new parts. We back this with one of the best warranties in the industry.

Shortblock Assemblies

Our remanufactured shortblocks meet the highest standards in quality. All remanufactured components are inspected for structural integrity, cracks and dimensional specifications and then remanufactured back to OEM specifications. The components are then assembled using the highest quality new parts. We back this with one of the best warranties in the industry.

	Head Bolt, 160 mm long	AMJ917728	$ 6.70	

Shift Kit

This bolt-on kit alters the shift pattern so you can easily shift from high-reverse to 7th gear, eliminating shifting by the lower gears every time you change direction. The kit also makes the high-reverses available on older 2-reverse tractors.

Application	Description	Part Number	Retail Price	Core
7110, 7120, 7130, 7140, 7150, 7210, 7220, 7230, 7240, 7250, 8910, 8920, 8930, 8940, 8950	Shift Kit Includes shift plate cover, park lock lever, decal and instructions	AMX19109	$ 450.00

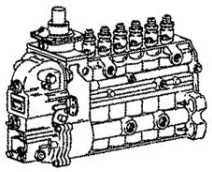
Injection Pumps



All of our injection pumps are disassembled, thoroughly cleaned and inspected. All worn out parts are replaced and the pumps are reassembled with new gaskets. Pumps are tested for leaks and fuel delivery at low idle, high idle, full load, part load and at start up. Any pumps with an automatic advance system has the advance set. As an additional quality check, all pumps are tested with a special oil that will not varnish inside the pump.

Mufflers and Exhaust

Our mufflers are manufactured by experienced craftsmen here in the United States. All mufflers have welded seams. Aluminized steel is used for critical components. These features ensure that our products resist the corrosive effects of air, heat and the by-products of combustion that work to shorten muffler life. Additionally, they are painted either silver or black to cosmetically match its OEM counterpart, as well as provide further protection from the elements.

Application	Description	Part Number	Retail Price	Core

Longblock Assemblies

Our remanufactured longblocks meet the highest standards in quality. All remanufactured components are inspected for structural integrity, cracks and dimensional specifications and then remanufactured back to OEM specifications. The components are then assembled using the highest quality new parts. We back this with one of the best warranties in the industry.

Feederhouse Chains

Our feederhouse chains for Case IH® and International® rotary combines are assembled from high-quality CA557 heavy-duty chain. Slats are mounted using 3/8" grade 5 hardware and locktite for added durability. Conventional combine chains use CA550 chain and slats are mounted with 3/8" grade 5 plated hardware. All feederhouse chains come with serrated slats unless otherwise noted. Chain only kits are available on many chains, ask your sales representative. Priced at 70% of the complete chain price. Chain kits will ship via UPS.

Rotor Grates and Components

Slotted grates perform well under grain harvesting conditions, while the keystock grates are better for corn, soybeans, rice and milo. The shredder grate replaces the rear grate and has a unique keystock grate and blade system that will thoroughly shred the stalks. Installation requires less than an hour and is an alternative to purchasing a more expensive straw chopper.

Application	Description	Part Number	Retail Price	Core
1420, 1620	Rotor Grates, Keystock - Set of 3 OEM Style	AM1303002C3	$ 655.00

Rotor Transition Cones and Components

Rotor cones are made of abrasive-resistant steel. The 5/32" cone with one welded seam compares to OEM 3 or 5 seam cones. The 3/16" cone with one welded seam compares to OEM rice cones. The 1/4" cone with one welded seam does not have an OEM comparison.

Application	Description	Part Number	Retail Price	Core

Rotor Front Kits and Components

Improve the performance of your Case IH® rotary combine with the addition of a KRF Rotor Flight Kit. Both styles offer you improved threshing performance, better distribution and consistent flow of material for smoother operation, while providing reduced horsepower requirements for increased fuel efficiency.

Sickle Assemblies Without Heads

Easy-to-assemble interlocking/overlapping bar bolts together for greater field convenience. ThunderBOLT Sickles can ship via UPS and are easy to carry and store. The Gold'N Cut section utilizes a course serration that sharpens itself as wearing occurs, giving you the longest wear for your money. All sickle sections feature bolt-on convenience and are heat-treated for superior cutting life.

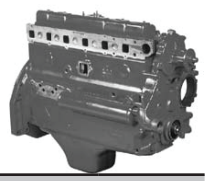
Longblock Assemblies



Our remanufactured longblocks meet the highest standards in quality. All remanufactured components are inspected for structural integrity, cracks and dimensional specifications and then remanufactured back to OEM specifications. The components are then assembled using the highest quality new parts. We back this with one of the best warranties in the industry.

Shortblock Assemblies

Our remanufactured shortblocks meet the highest standards in quality. All remanufactured components are inspected for structural integrity, cracks and dimensional specifications and then remanufactured back to OEM specifications. The components are then assembled using the highest quality new parts. We back this with one of the best warranties in the industry. Camshafts and lifters are not included with these shortblocks and must be purchased separately.

Application	Description	Part Number	Retail Price	Core
3000 w/ 158 3 Cylinder Diesel Engine	Reman Shortblock Assembly	SBFD1583000	$ 3250.00	$ 500.00

Connecting Rods

All connecting rods are cleaned and inspected for defects prior to remanufacturing. Rods are then shot-peened for stress relief and the size is checked against OEM specifications. New piston pin bushings are installed in each rod and bored to the correct center-to-center dimensions. The center-to-center dimension greatly affects the performance of your engine and is a step that many remanufacturers ignore. Final assembly of our connecting rods include installation of new rod bolts and verifying product dimensions, including bend and twist, one final time.

Oil Pumps, Engine

All of our remanufactured engine oil pumps are disassembled, thoroughly cleaned and inspected. All worn parts are replaced and tolerances are checked to guarantee our oil pumps will perform to OEM specifications. The pump is reassembled and - as a safety measure - each pump is lubricated with Clevite Bearing Guard to ensure there is no damage during initial start up. Replacing the engine oil pump during an overhaul is a step many people overlook.

Application	Description	Part Number	Retail Price	Core
600, 700, 800, 900 Series - w/ 4 Cylinder Engine	Engine Oil Pump Hex Drive, Gear Type Output Mounting Flange has Square Opening	AMEAE6621AB	$ 55.00

Water Pumps

The remanufactured water pumps we supply have an extra step added to the remanufacturing process to ensure quality. Since the bearing and seal assembly are critical in performance, we ensure air-tight seals by vacuum testing our water pumps prior to packaging. This guarantees no leakage will occur after your water pump has been installed.

Application	Description	Part Number	Retail Price	Core

Injection Pumps

All of our injection pumps are disassembled, thoroughly cleaned and inspected. All worn out parts are replaced and the pumps are reassembled with new gaskets. Pumps are tested for leaks and fuel delivery at low idle, high idle, full load, part load and at start up. Any pumps with an automatic advance system has the advance set. As an additional quality check, all pumps are tested with a special oil that will not varnish inside the pump.

Injectors

Our remanufactured injectors are disassembled and thoroughly cleaned. The internal components are lapped to ensure there is no leakage. All tips are inspected for hole erosion and opening pressure; and the spray pattern is tested using OEM specifications.

Mufflers and Exhaust

Our mufflers are manufactured by experienced craftsmen here in the United States. All mufflers have welded seams. Aluminized steel is used for critical components. These features ensure that our products resist the corrosive effects of air, heat and the by-products of combustion that work to shorten muffler life. Additionally, they are painted either silver or black to cosmetically match its OEM counterpart, as well as provide further protection from the elements.

Application	Description	Part Number	Retail Price	Core
2N, 8N, 9N	Exhaust System Welded 1-Piece Muffler & Pipe Assembly w/ Flared Pipe Inlet Uses Clamp for Flared Inlet	AM8N5230	$ 26.25

Starters

All of our remanufactured starters are disassembled, cleaned and inspected. Almost all units receive new field coils. If it meets OEM specifications the armature is test turned and under cut, otherwise it is replaced with a quality factory remanufactured or new part. Starters with factory solenoids have the solenoids replaced with new parts. The drive is carefully inspected and if it does not meet specifications it is replaced with new or quality factory remanufactured drives.

Feederhouse Chains

Our feederhouse chains utilize high-quality materials to meet or exceed OEM specifications. Slats are mounted using 3/8" grade 5 plated bolts and locknuts for easy replacement. Chains feature full side plates and high-strength steel for added durability. All feederhouse chains come with serrated slats unless otherwise noted. Call for different slats and chain configurations available to fit your application. Chain only kits available on many chains, ask your sales representative. Priced at 70% of the complete chain price. Chain kits will ship via UPS.

Application	Description	Part Number	Retail Price	Core

Concaves and Components

Made of heavy-duty, high carbon steel cross bars and high carbon steel 1/4" wires. Narrow-spaced rotary concaves feature low wires for more aggressive separation. Holes are drilled to provide a tight wire fit, which prevents spearing and trapping of straw. Corn concaves feature wider spacing and high wires to prevent plugging between bars.

Application	Description	Part Number	Retail Price	Core
CR970, CR980, CR9070, CR9080, CR9090	Concave Kit, Narrow Wire Includes Concave, Concave Extension and Hardware	AM87651759	$ 1638.00

Longblock Assemblies

Our remanufactured longblocks meet the highest standards in quality. All remanufactured components are inspected for structural integrity, cracks and dimensional specifications and then remanufactured back to OEM specifications. The components are then assembled using the highest quality new parts. We back this with one of the best warranties in the industry.

Application	Description	Part Number	Retail Price	Core
1066, 1086 - w/ DT414 6 Cylinder Engine	Reman Longblock Assembly Vent in Valve Cover	LBIHT414T2	$ 4950.00	$ 1500.00

Prices Subject to Change without Prior Notice. The use of original equipment manufacturer (OEM) part numbers or trademarks, e.g. Case® and John Deere®, are for reference purposes only and for indicating product use and compatibility. Our company and the listed replacement parts contained herein are not sponsored, approved or manufactured by the OEM. All parts are New unless designated Reman in the description.

Connecting Rods

All connecting rods are cleaned and inspected for defects prior to remanufacturing. Rods are then shot-peened for stress relief and the size is checked against OEM specifications. New piston pin bushings are installed in each rod and bored to the correct center-to-center dimensions. The center-to-center dimension greatly affects the performance of your engine and is a step that many remanufacturers ignore. Final assembly of our connecting rods include installation of new rod bolts and verifying product dimensions, including bend and twist, one final time.

Prices Subject to Change without Prior Notice. The use of original equipment manufacturer (OEM) part numbers or trademarks, e.g. Case® and John Deere®, are for reference purposes only and for indicating product use and compatibility. Our company and the listed replacement parts contained herein are not sponsored, approved or manufactured by the OEM. All parts are New unless designated Reman in the description.

Oil Pumps, Engine

All of our remanufactured engine oil pumps are disassembled, thoroughly cleaned and inspected. All worn parts are replaced and tolerances are checked to guarantee our oil pumps will perform to OEM specifications. The pump is reassembled and - as a safety measure - each pump is lubricated with Clevite Bearing Guard to ensure there is no damage during initial start up. Replacing the engine oil pump during an overhaul is a step many people overlook.

Application	Description		Part Number	Retail Price	Core

Water Pumps

The remanufactured water pumps we supply have an extra step added to the remanufacturing process to ensure quality. Since the bearing and seal assembly are critical in performance, we ensure air-tight seals by vacuum testing our water pumps prior to packaging. This guarantees no leakage will occur after your water pump has been installed.

Injection Pumps

All of our injection pumps are disassembled, thoroughly cleaned and inspected. All worn out parts are replaced and the pumps are reassembled with new gaskets. Pumps are tested for leaks and fuel delivery at low idle, high idle, full load, part load and at start up. Any pumps with an automatic advance system has the advance set. As an additional quality check, all pumps are tested with a special oil that will not varnish inside the pump.

Application	Description	Part Number	Retail Price	Core

Injectors

Our remanufactured injectors are disassembled and thoroughly cleaned. The internal components are lapped to ensure there is no leakage. All tips are inspected for hole erosion and opening pressure; and the spray pattern is tested using OEM specifications.

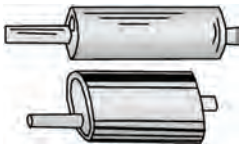
Mufflers and Exhaust



Our mufflers are manufactured by experienced craftsmen here in the United States. All mufflers have welded seams. Aluminized steel is used for critical components. These features ensure that our products resist the corrosive effects of air, heat and the by-products of combustion that work to shorten muffler life. Additionally, they are painted either silver or black to cosmetically match its OEM counterpart, as well as provide further protection from the elements.

Starters

All of our remanufactured starters are disassembled, cleaned and inspected. Almost all units receive new field coils. If it meets OEM specifications the armature is test turned and under cut, otherwise it is replaced with a quality factory remanufactured or new part. Starters with factory solenoids have the solenoids replaced with new parts. The drive is carefully inspected and if it does not meet specifications it is replaced with new or quality factory remanufactured drives.

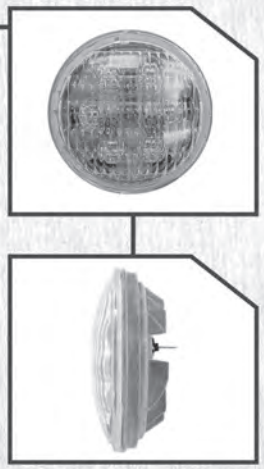
LED Floodlamp, Sealed Beam



AMRE336112

- Lasts 50 times longer than halogen lighting
- Vibration resistant
- No filament failures
- 6 diodes (3 watts each) provide 1440 lumens
- Draws less current than comparable halogens
- 2-terminal connection
- Operating temperature: - 40 to 140 degrees Fahrenheit / - 40 to 60 degrees Celsius
- All new, remanufactured and recycled tractor parts have a one-year warranty

Fits John Deere® Tractors: 2010, 2040, 2240, 2510, 2520, 2840, 2940, 3010, 3020, 4000, 4010, 4020, 4030, 4040, 4050, 4055, 4230, 4240, 4250, 4255, 4320, 4430, 4440, 4450, 4455, 4520, 4555, 4560, 4620, 4630, 4640, 4650, 4755, 4760, 4840, 4850, 4955, 4960, 5010, 5020, 6030, 7020, 7520, 8430 (1974-1981), 8440, 8450, 8560, 8570, 8630, 8640, 8650, 8760, 8770, 8850, 8870, 8960, 8970, 9100, 9200, 9300, 9300T, 9400, 9400T

Longblock Assemblies

Our remanufactured longblocks meet the highest standards in quality. All remanufactured components are inspected for structural integrity, cracks and dimensional specifications and then remanufactured back to OEM specifications. The components are then assembled using the highest quality new parts. We back this with one of the best warranties in the industry.

Shortblock Assemblies

Our remanufactured shortblocks meet the highest standards in quality. All remanufactured components are inspected for structural integrity, cracks and dimensional specifications and then remanufactured back to OEM specifications. The components are then assembled using the highest quality new parts. We back this with one of the best warranties in the industry.

John Deere®—Tractor

Connecting Rods

All connecting rods are cleaned and inspected for defects prior to remanufacturing. Rods are then shot-peened for stress relief and the size is checked against OEM specifications. New piston pin bushings are installed in each rod and bored to the correct center-to-center dimensions. The center-to-center dimension greatly affects the performance of your engine and is a step that many remanufacturers ignore. Final assembly of our connecting rods include installation of new rod bolts and verifying product dimensions, including bend and twist, one final time.

John Deere®—Tractor

Oil Pumps, Engine

All of our remanufactured engine oil pumps are disassembled, thoroughly cleaned and inspected. All worn parts are replaced and tolerances are checked to guarantee our oil pumps will perform to OEM specifications. The pump is reassembled and - as a safety measure - each pump is lubricated with Clevite Bearing Guard to ensure there is no damage during initial start up. Replacing the engine oil pump during an overhaul is a step many people overlook.

John Deere®—Tractor

Water Pumps

The remanufactured water pumps we supply have an extra step added to the remanufacturing process to ensure quality. Since the bearing and seal assembly are critical in performance, we ensure air-tight seals by vacuum testing our water pumps prior to packaging. This guarantees no leakage will occur after your water pump has been installed.

Injection Pumps

All of our injection pumps are disassembled, thoroughly cleaned and inspected. All worn out parts are replaced and the pumps are reassembled with new gaskets. Pumps are tested for leaks and fuel delivery at low idle, high idle, full load, part load and at start up. Any pumps with an automatic advance system has the advance set. As an additional quality check, all pumps are tested with a special oil that will not varnish inside the pump.

Application	Description	Part Number	Retail Price	Core

Injectors

Our remanufactured injectors are disassembled and thoroughly cleaned. The internal components are lapped to ensure there is no leakage. All tips are inspected for hole erosion and opening pressure; and the spray pattern is tested using OEM specifications.

John Deere®—Tractor

Mufflers and Exhaust

Our mufflers are manufactured by experienced craftsmen here in the United States. All mufflers have welded seams. Aluminized steel is used for critical components. These features ensure that our products resist the corrosive effects of air, heat and the by-products of combustion that work to shorten muffler life. Additionally, they are painted either silver or black to cosmetically match its OEM counterpart, as well as provide further protection from the elements.

Application	Description	Part Number	Retail Price	Core
2150, 2155 w/ 3-179 Non-Turbo Engine, 2350, 2355, 2550, 2555 w/ 4239D Non-Turbo Engine - Diesel	Muffler Conversion Kit Muffler and Pipe Kit converts under-hood muffler to above-hood muffler and vertical exhaust. Kit contains manifold-to-muffler pipe (2-bolt flanged inlet), muffler, above hood pipe, clamps and rain cap. Painted black.	AMDR-2150K	$ 147.50

	Inlet Clamp	CL-312	$ 6.50	

Starters

All of our remanufactured starters are disassembled, cleaned and inspected. Almost all units receive new field coils. If it meets OEM specifications the armature is test turned and under cut, otherwise it is replaced with a quality factory remanufactured or new part. Starters with factory solenoids have the solenoids replaced with new parts. The drive is carefully inspected and if it does not meet specifications it is replaced with new or quality factory remanufactured drives.

Rear Power Shift Packs and Components

Each unit is carefully disassembled, cleaned and inspected. All bearings, races, bushings, seals, etc. are replaced with quality new parts. All hard parts such as carriers, gears, drums, hubs and shafts are inspected, recleaned and inspected again. If these parts do not meet specifications they are replaced with updated new parts or quality used parts that meet OEM specifications.

John Deere®—Combine

Feederhouse Chains

Our feederhouse chains for John Deere® combines use high-quality materials to meet exact specifications. Our t-slats are mounted in the middle of the links. Slats are mounted using 3/8" grade 5 plated bolts and locknuts for easy replacement. Chains feature full side plates and high-strength steel for added durability. Call for different slat and chain configurations available to fit your application. Chain only kits are available on many chains, ask your sales representative. Priced at 70% of the complete chain price. Chain kits will ship UPS.

Concaves and Components

Made of heavy-duty, high carbon steel cross bars and high carbon steel 3/16" wires. Narrow-spaced rotary concaves feature low wires for more aggressive separation. Holes are drilled to provide a tight wire fit, which prevents spearing and trapping of straw. Corn concaves feature wider spacing and high wires to prevent plugging between bars.

Shortblock Assemblies

Our remanufactured shortblocks meet the highest standards in quality. All remanufactured components are inspected for structural integrity, cracks and dimensional specifications and then remanufactured back to OEM specifications. The components are then assembled using the highest quality new parts. We back this with one of the best warranties in the industry.

Water Pumps and Components

The remanufactured water pumps we supply have an extra step added to the remanufacturing process to ensure quality. Since the bearing and seal assembly are critical in performance, we ensure air-tight seals by vacuum testing our water pumps prior to packaging. This guarantees no leakage will occur after your water pump has been installed.

Application	Description	Part Number	Retail Price	Core
25, 130 - w/ 4.99 or 4.107 Perkins® Diesel Engine	Water Pump w/o Pulley Includes Mounting Gasket Replaces 743064M91, 748073M91, 3118125R91	AM748095M91	$ 62.50

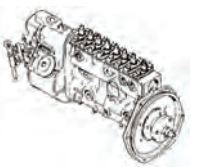
Injection Pumps



All of our injection pumps are disassembled, thoroughly cleaned and inspected. All worn out parts are replaced and the pumps are reassembled with new gaskets. Pumps are tested for leaks and fuel delivery at low idle, high idle, full load, part load and at start up. Any pumps with an automatic advance system has the advance set. As an additional quality check, all pumps are tested with a special oil that will not varnish inside the pump.

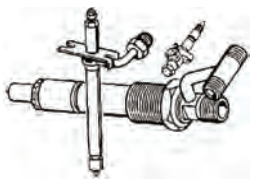
Injectors



Our remanufactured injectors are disassembled and thoroughly cleaned. The internal components are lapped to ensure there is no leakage. All tips are inspected for hole erosion and opening pressure; and the spray pattern is tested using OEM specifications.

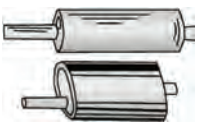
Mufflers and Exhaust



Our mufflers are manufactured by experienced craftsmen here in the United States. All mufflers have welded seams. Aluminized steel is used for critical components. These features ensure that our products resist the corrosive effects of air, heat and the by-products of combustion that work to shorten muffler life. Additionally, they are painted either silver or black to cosmetically match its OEM counterpart, as well as provide further protection from the elements.

Starters

All of our remanufactured starters are disassembled, cleaned and inspected. Almost all units receive new field coils. If it meets OEM specifications the armature is test turned and under cut, otherwise it is replaced with a quality factory remanufactured or new part. Starters with factory solenoids have the solenoids replaced with new parts. The drive is carefully inspected and if it does not meet specifications it is replaced with new or quality factory remanufactured drives.

Feederhouse Chains

Our feederhouse chains utilize high-quality materials to meet or exceed OEM specifications. Slats are mounted using 3/8" grade 5 plated bolts and locknuts for easy replacement. Chains feature full side plates and high-strength steel for added durability. All feederhouse chains come with serrated slats unless otherwise noted. Call for different slats and chain configurations available to fit your application. Chain only kits available on many chains, ask your sales representative. Priced at 70% of the complete chain price. Chain kits will ship via UPS.

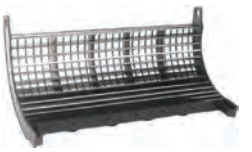
Concaves and Components



Made of heavy-duty, high carbon steel cross bars and high carbon steel 1/4" wires. Narrow-spaced rotary concaves feature low wires for more aggressive separation. Holes are drilled to provide a tight wire fit, which prevents spearing and trapping of straw. Corn concaves feature wider spacing and high wires to prevent plugging between bars.

Application	Description		Part Number	Retail Price	Core
750	Concave w/ Front and Rear Plates	Small Wire	AM258843E92	$ 1445.00

Water Pumps

The remanufactured water pumps we supply have an extra step added to the remanufacturing process to ensure quality. Since the bearing and seal assembly are critical in performance, we ensure air-tight seals by vacuum testing our water pumps prior to packaging. This guarantees no leakage will occur after your water pump has been installed.

Application	Description	Part Number	Retail Price	Core

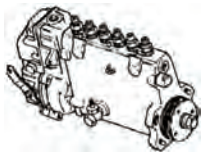
Injection Pumps



All of our injection pumps are disassembled, thoroughly cleaned and inspected. All worn out parts are replaced and the pumps are reassembled with new gaskets. Pumps are tested for leaks and fuel delivery at low idle, high idle, full load, part load and at start up. Any pumps with an automatic advance system has the advance set. As an additional quality check, all pumps are tested with a special oil that will not varnish inside the pump.

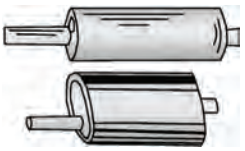
Mufflers and Exhaust



Our mufflers are manufactured by experienced craftsmen here in the United States. All mufflers have welded seams. Aluminized steel is used for critical components. These features ensure that our products resist the corrosive effects of air, heat and the by-products of combustion that work to shorten muffler life. Additionally, they are painted either silver or black to cosmetically match its OEM counterpart, as well as provide further protection from the elements.

Application	Description	Part Number	Retail Price	Core

Starters

All of our remanufactured starters are disassembled, cleaned and inspected. Almost all units receive new field coils. If it meets OEM specifications the armature is test turned and under cut, otherwise it is replaced with a quality factory remanufactured or new part. Starters with factory solenoids have the solenoids replaced with new parts. The drive is carefully inspected and if it does not meet specifications it is replaced with new or quality factory remanufactured drives.

Cylinder Heads, Complete

Application	Description	Part Number	Retail Price	Core
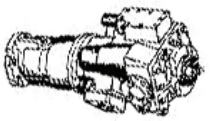
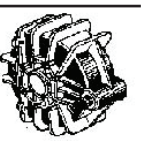
6125, 6145	Complete Cylinder Head 6-590, 6T-590, 6TA-590	AMJ917287WV	$ 750.00	

Hydrostats and Components



Our hydrostats are remanufactured by a remanufacturing facility recognized by Sauer/Sundstrand. All units are assembled by a factory-trained technician, using genuine new and remanufactured replacement parts. All units are fully tested to factory specifications for maximum performance.

Application	Description	Part Number	Retail Price	Core
8600	Reman Hydrostat, Sundstrand	H8600S	$ 3350.00	$ 500.00
9700	Reman Hydrostat, Sundstrand	H9700S-24/24	$ 4950.00	$ 900.00



Final Drives and Components

Application	Description	Part Number	Retail Price	Core
White®: 7600, 7800, 8600, 8700, 8800, 8900, 8920	Pinion Shaft 15 Tooth	AMW1500030	$ 410.50	
8945, 9700, 9720	Pinion Shaft 11 Tooth	AM31-2490120	$ 261.50	

Feederhouse Chains

Our feederhouse chains utilize high-quality materials to meet or exceed OEM specifications. Slats are mounted using 3/8" grade 5 plated bolts and locknuts for easy replacement. Chains feature full side plates and high-strength steel for added durability. All feederhouse chains come with serrated slats unless otherwise noted. Call for different slats and chain configurations available to fit your application. Chain only kits available on many chains, ask your sales representative. Priced at 70% of the complete chain price. Chain kits will ship via UPS.

Application	Description	Part Number	Retail Price	Core
7600, 8600, 8700	Feederhouse Chain 90 links - Serrated slats every 2nd link 3 Chain Assembly	AM31-1779723L	$ 673.00	
9700, 9720	Feederhouse Chain 96 links - Serrated slats every 4th link 3 Chain Assembly, CA-557	AM31-2606273L	$ 961.50	

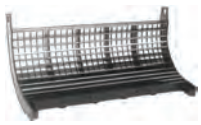
Prices Subject to Change without Prior Notice. The use of original equipment manufacturer (OEM) part numbers or trademarks, e.g. Case® and John Deere®, are for reference purposes only and for indicating product use and compatibility. Our company and the listed replacement parts contained herein are not sponsored, approved or manufactured by the OEM. All parts are New unless designated Reman in the description.

Cylinder Bars and Kits

All bars are carefully checked and sets are matched for equal weight distribution on the cylinder prior to shipment. Grade 8 fasteners are supplied for most models.

Application	Description	Part Number	Retail Price	Core
542, 545, 5542, 4293, 4296	Cylinder Bar Kit 5 Hole, 4 Right and Left Hand Angle Bars w/ Mounting Fasteners	AM31-1833383	$ 306.50	
9700, 9720	Cylinder Bar Kit 3 Bars w/ Mounting Fasteners	AM31-2497293	$ 174.50	
9700, 9720	Cylinder Bar Kit 3 Bars w/ Mounting Fasteners	AM31-2497283	$ 153.50	

Concaves



Made of heavy-duty, high carbon steel cross bars and high carbon steel 1/4" wires. Narrow-spaced rotary concaves feature low wires for more aggressive separation. Holes are drilled to provide a tight wire fit, which prevents spearing and trapping of straw. Corn concaves feature wider spacing and high wires to prevent plugging between bars.

Application	Description	Part Number	Retail Price	Core
7800, 8800, 8900, 8920, 8950	Concave, Small Grain Wrap Around, Narrow Space	AM31-1812733	$ 1317.00	
9700, 9720	Concave, Set of 7	AM31-2490461	$ 3125.50	

Elevator Chains

Elevator chains include rubber paddles attached with 5/16" plated bolts and nuts (unless noted in the individual description). Chains feature full side plates for added strength.

Application	Description	Part Number	Retail Price	Core
9700, 9720	Clean Grain Elevator Chain 146 links - 9 1/2" x 3 1/8" Rubber paddles every 4th link	AM2605873W91	$ 390.00	
	Rubber Paddle 9 1/2" x 3 1/8"	AM2412990W1	$ 5.20	
White®: 7600, 7800, 8600, 8700, 8800, 8900, 8920	Return Grain Elevator Chain 138 links - 5 5/8" x 3 1/8" paddles every 6th link	AM31-1666673L	$ 267.00	
9700, 9720	Return Grain Elevator Chain 154 links - 5 5/8" x 3 1/8" Rubber paddles every 4th link	AM31-2605863L	$ 325.00	

Elevator Chain Sprockets

To extend the life of your chain assemblies, always replace the sprockets when installing a new chain.

7600, 7800, 8600, 8650, 8700, 8800, 8900, 8920	Return Grain Elevator Chain Sprocket, Upper 8 Tooth, 1.00" Shaft	AMW9863070	$ 74.25	
9700, 9720, 8560, 8570	Return Grain Elevator Chain Sprocket, Upper 8 Tooth, 1.125" Shaft	AM9863040W1	$ 64.40	
2500, 2600	Return Grain Elevator Chain Sprocket, Lower 8 Tooth Sprocket w/o Hub	AM71373688	$ 47.00	
7600, 7800, 8600, 8650, 8700, 8800, 8900, 8920	Return Grain Elevator Chain Sprocket, Lower 8 Tooth, 1.00" Shaft	AMW9863700	$ 31.70	
9700, 9720, 8560, 8570	Return Grain Elevator Chain Sprocket, Lower 8 Tooth, 1.125" Shaft	AMW9863030	$ 41.25	

Straw Chopper Blades and Components

Hardened-steel chopper blades

Application	Description	Part Number	Retail Price	Core
8800, 8900, 9700	Straw Chopper Blade Kit Set of 3 w/ hardware	AM71310275	$ 20.00	

Lighting

Application	Description	Part Number	Retail Price	Core
	LED Floodlight All-Position Light 6.25" x 1.75" Rectangle Light 1300 Lumens, 18 Watts, 1.50 Amps For 12 Volt to 24 Volt Systems Includes Mounting Bracket and Stainless Steel Hardware	AMTL118F	$ 49.00	
	LED Floodlight All-Position Light 5" Round Light 3200 Lumens, 40 Watts, 3.30 Amps For 12 Volt to 24 Volt Systems Includes Mounting Bracket and Stainless Steel Hardware	AMTL180	$ 89.00	
	LED Floodlight All-Position Light Round Light 6900 Lumens, 50 Watts, 4.10 Amps For 9 Volt to 32 Volt Systems Includes Mounting Bracket and Stainless Steel Hardware	AMTL500F	$ 115.00	
	LED Floodlight Fender Mount 4.50" Diameter Sealed Beam Round Light 1250 Lumens, 18 Watts, 1.20 Amps Trapezoid Pattern Lasts 50 times longer than halogen lighting, vibration resistant w/ no filament failures, uses original mount and wiring, Operating temperature of -40°F to 140°F / -40°C to 60°C Replaces 131203C1, RE285628, RE561116, RE561117, WL1116	AMRE336111	$ 39.00	
	LED Floodlight Fender Mount 4.50" Diameter Sealed Beam Round Light 1440 Lumens, 18 Watts, 1.60 Amps Lasts 50 times longer than halogen lighting, vibration resistant w/ no filament failures, 2-terminal connection, Operating temperature of -40°F to 140°F / -40°C to 60°C Replaces 131203C1, RE285628	AMRE336112	$ 55.00	

Prices Subject to Change without Prior Notice. FEATURED PRODUCTS

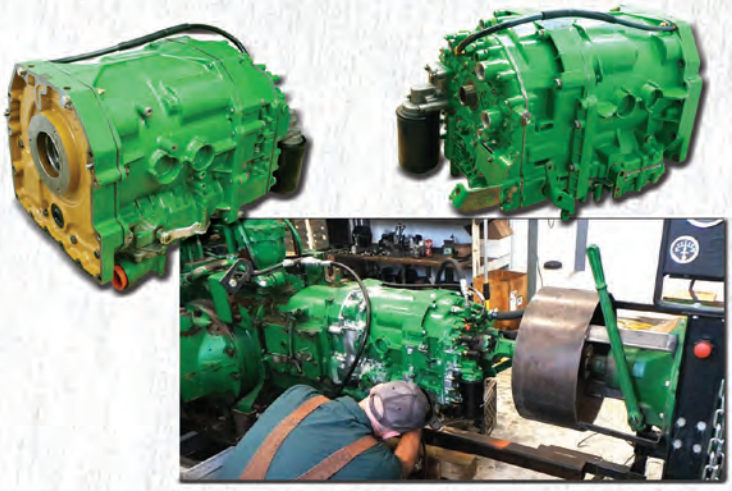
Reman Transmission Assemblies

For John Deere® 6000, 7000 & 8000

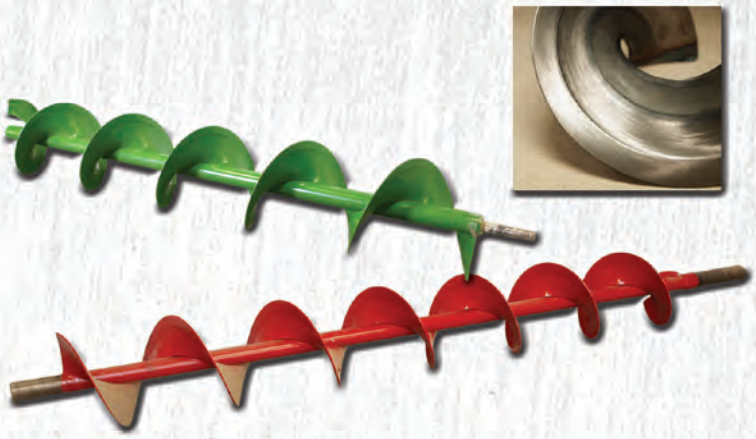
Our qualified technicians disassemble, clean, inspect and rebuild the assemblies in our new reman facility. Units are built to operate efficiently under a load on our test stand before receiving our "stamp of approval."



Extended Wear Augers

Significantly reduce the auger's cost per bushel

Our redesigned concave flight face, thickened outer edge and higher-carbon steel provide for much better wear and over 50% longer life.



Chaffers & Sieves

Blunt Finger

Short Finger

Long Finger

Adjustable Handles

Concave Sets

Our concaves are made of 1045 high-carbon steel – measuring 5/16".
